ENGINEERING COMPANIES  
ONTARIO

## VOLUNTEER SPOTLIGHT

Mehemed Delibasic

### PROFESSION

*Assistant Vice President,  
Transportation Planning and  
Traffic Engineering*

*McIntosh Perry Consulting  
Engineers*

### EXPERIENCED GAINED

*I have shown ongoing initiative,  
leadership, and passion/ dedication  
to the engineering profession. I  
believe volunteering for engineering  
community/ profession enables me to  
expand my horizon, learn and share  
knowledge, provide mentorship and  
guidance to the new engineering  
graduates to engage with  
engineering and help shape the  
leaders of tomorrow.*

### ADVICE

*Volunteerism provides a platform for  
engineers to create positive change,  
opportunity to advocate for engineers'  
interests and provides benefits to the  
public by advocating for technically  
sound policies.*

### WORK WITH ACEC-ONTARIO

*I've began volunteer work with ACEC-  
Ontario in 2020.*

*Currently, I am the Vice-Chair of the  
ACEC-Ontario Simcoe Chapter.*

### WHY VOLUNTEER?

*ACEC-Ontario offers a great  
opportunity to contribute to the  
engineering community, engage with  
provincial/ municipal stakeholders  
and industry leaders, to give back to  
our profession/ industry, and  
effectively promote/ advocate the  
professional and economic interests of  
consulting engineering industry  
province-wide.*

### ON THE PERSONAL SIDE

*Walking in nature is a calming  
activity that gives me a break from  
everyday work. Plus, it helps to get  
my daily dose of sunshine. Sunshine  
and nature naturally stabilize our  
moods, feelings of well-being, and  
happiness.*

### RELAX - WHAT'S YOUR FAVOURITE TRAVEL DESTINATION?

*The favorite place I've visited is  
Spain. I love traveling to cultural  
cities rich in history. There are  
many beautiful places in Spain,  
however the magnificent Alhambra  
(Granada, Andalusia region) is truly  
stunning examples of Moorish  
medieval architecture. It is one of  
the most memorable and fantastic  
world heritage sites that I have ever  
visited.*

### FUN FACT

*Maybe not fun and others may  
know, but I am passionate about  
photography. As they said, "pictures  
are worth a thousand words." Well,  
it's true, because photographs tell  
such personal stories. Being able to  
capture the perfect frame is  
equivalent to taking action at the  
precise moment, or when taking  
pictures, you'll almost never be able  
to recreate what you see before your  
eyes if you don't capture the shot at  
that very moment.*
