VOLUNTEER SPOTLIGHT

Christine Shillinglaw

Manager, Transportation Structures Eastern Ontario
McIntosh Perry

YOUR DAY JOB

I am the Manager of the Transportation Structures Group for Eastern Ontario for McIntosh Perry. I oversee a great team of engineers and project managers and we focus on delivering high quality bridge, culvert and other structures projects to our clients.

EXPERIENCED GAINED

My biggest take away from my volunteer experience is the knowledge sharing and connections I have made with other members in the Ottawa Chapter and ACEC-Ontario. I have also gained an understanding of how ACEC-Ontario operates and the benefits it provides to its members.

FUN FACT

When I was in high school, I wanted to be a teacher. I decided to switch to engineering in Grade 12 and have never looked back.

WORK WITH ACEC-ONTARIO

I am currently the ACEC-Ontario Ottawa Chapter Secretary. I have been working with ACEC-Ontario since 2018.

WHY VOLUNTEER?

One of my colleagues and mentors was involved in the Ottawa Chapter for several years and had really enjoyed his time on the Executive. He was starting to transition into retirement and started taking me to the Chapter meetings. I really enjoyed being part of the Chapter, and saw the benefits of what the Chapter had to offer. I felt I could contribute and started to volunteer.

RELAX - WHAT'S YOUR FAVOURITE TRAVEL DESTINATION?

We recently bought a cottage & I love being on the lake and would be happy to travel their indefinitely.

ADVICE

The main advice I would give new members is to get involved and offer to help out! It's the best way to show commitment, offer your skills and add value to the group.
