

VOLUNTEER SPOTLIGHT

Owen Healey

YOUR DAY JOB

I am the Discipline Manager of Energy & Infrastructure Surveys at Tulloch. This includes leading technical and managerial team members to achieve team and individual success, field and office scheduling, project budgeting, financial monitoring and forecasting, business development and proposals, client management, and project management.

WORK WITH ACEC-ONTARIO

Since 2022, I have been a member of ACEC-Ontario's Future Leaders Network (FLN). I am also a member of the Finance and Audit Committee (FAC).

ADVICE

My advice to a new volunteer is to go for it, give it a shot, and to be open-minded. Try to step out of your comfort zone and learn new things. It is a great way to grow and develop personally while also contributing positively to the profession.

WHAT BROUGHT YOU TO VOLUNTEER?

I had been searching for opportunities to get back into volunteering and came across ACEC-Ontario through our firm's participation in the organization. I was seeking a way to engage with the larger engineering community, step out of my comfort zone, and expand my network.

EXPERIENCED GAINED

So far I feel as though I've had meaningful contributions to the FLN team and as a member of the FAC. I've had the pleasure of meeting many new peers in the industry and have benefited from observing and hearing different perspectives.

RELAX - WHAT'S YOUR FAVOURITE TRAVEL DESTINATION?

I have yet to land on a favorite place. Fortunately, I've had the opportunity to visit some beautiful destinations in recent years and am eager to explore new ones. My girlfriend and I are excited about being guests at a traditional Mexican wedding in Mexico City in March.

FUN FACT

A fun fact about me that others may not know is that I grew up speaking French as my first language.

WELL-BEING PERSPECTIVE

My go-to activity to step away from work is to spend time at my family's cottage. I really enjoy walking our dogs on the lake in the winter and snowmobiling.
